OBJECTIVE

Highly motivated and skilled Full Stack Developer seeking an opportunity to leverage my strong foundation in web development, problem-solving abilities, and passion for technology to contribute to a dynamic development team. Eager to apply my knowledge of front-end and back-end technologies to create innovative and user-friendly web applications. Committed to continuous learning and adapting to emerging technologies, with a strong focus on delivering high-quality code and exceptional user experiences.

PROJECTS

- **YouTube Clone**
  Streaming using mobile is possible in the YouTube clone app. Content creators can stream their videos from anywhere. Things they need to stream are mobile with good internet connectivity. With this, they can stream anything they like.

- **Admin Dashboard**
  Admin panel and dashboards display all the data and information that the system was programmed to collect and organize. This might include the technical status of the platform, details about customer and user profiles , the status of business operations, and

many other informational aspects of the system.
